Interests:

Pecuniary & Non Pecuniary Dispositions:

**1. Minutes of the meeting on Monday 9<sup>th</sup> April, 2018** Cllr Longhorn asked why the item of the signs at Kilnsea had not been added to the agenda as he had requested in AOB and would like it minuted that this would be discussed, this was agreed. The Minutes were then agreed and signed as a true record of the meeting.

**2. Public Forum**

Kim Dalton: The defib had been needed over the weekend and it was noted that the person felt they lacked the confidence and knowledge to use it – could some information be added to the newsletter – The clerk to arrange but stressed that the first priority was to contact the emergency services and follow their instructions.

Andrea Clubley: the grass along the verge on Seaside Road was very long and had not been cut in quite some time. Cllr Clubley said that none of the verges had been cut yet. The Clerk to query when the work would be carried out.

**3. Ward Councilor Tucker**

The meeting regarding erosion and prospect of losing the road to Withernsea had taken place and Cllr Tucker thanked Cllr Longhorn for attending. This matter is very important and Cllr Tucker urged the PC to become more involved and if possible write to Jake Berry about the issue. If the road goes, access for everyone will be effected including emergency service access etc. The utilities which run under the road will also be effected – this is a really serious risk to the Parish.
